With the vision of redefining excellence, Cloud Security Alliance (CSA) embarked upon its glorious journey as the youngest and first-ever domain-centric student chapter in UPES in 2017. CSA student chapter is zealously dedicated to raising awareness of best practices to help ensure a secure cloud computing environment, in association with Cloud Security Alliance, Uttarakhand. In the pursuit of its aim, the student chapter has been reputed as a pinnacle of success, which is evident through the plethora of opportunities provided such as technology-centered workshops, technical events, and fun fests.

"A community of learners, innovators, and champions of our own success", quoting this, UPES-CSA strives to nurture its community of student innovators with immense knowledge.
